**Subject:** Model MS4 permitting documents?

Gents- I must be having a senior moment, but I am trying to local the model MS4 permit documents that were under development several years ago in a joint process between CASQA and Water Board leaders. But I cannot seem to find them. I am interested in all, but at the moment particularly interested in monitoring/reporting-related provisions. Any chance you can help me put my hands on these? Why reinvent the wheel if we got close back then? Thanks
